

TREVOR M. FASKE

Research Scientist, Landscape Stewardship Collective, Flagstaff, AZ

Website: landscollective.org; Email: trevor@landscollective.org

POSITIONS

Research Scientist / 501(c)(3) Co-founder Landscape Stewardship Collective, Flagstaff, AZ	2025 – present
Postdoctoral Fellow University of Montana, Missoula, MT	2025 – present
Research Ecologist / Postdoctoral Fellow USGS Southwest Biological Science Center, Flagstaff/Tucson, AZ	2023 – 2025

EDUCATION

Ph.D., Ecology, Evolution, and Conservation Biology University of Nevada, Reno, NV with Thomas Parchman and Beth Leger	2018 – 2023
M.S., Biology Virginia Commonwealth University, Richmond, VA with Andrew Eckert and Kristine Grayson	2015 – 2017
B.S., Bioinformatics/Mathematics Virginia Commonwealth University, Richmond, VA	2014

PUBLICATIONS (*authors contributed equally; ‡undergraduate/graduate mentee)

18. Massatti R*, **Faske TM***, Barnes IM, Leger EA, Parchman TL, Richardson BA, Knowles LL. (2025) Suturing fragmented landscapes: Mosaic hybrid zones in plants may facilitate ecosystem resiliency. *Proceedings of the National Academy of Sciences*, 122(31), e2410941122. [DOI](#)
17. Philbin CS, Burroughs M, Richards LA, **Faske TM**, Dyer LA, Parchman TL, Jeffrey CS (2025). Leveraging phytochemical variation in *Piper scintillans* Trel. To discover novel flavanone meroterpenes. *Phytochemistry Letters*, 69, 103134. [DOI](#)
16. Galland LM, **Faske TM**, Osuna-Mascaró C, Dilts TE, Bisbing S, Parchman TL (2025) Geography and Environment Shape Spatial Genetic Variation and Predict Climate Maladaptation Across Isolated and Disjunct Populations of *Pinus muricata*. *Molecular Ecology*, e17638. [DOI](#)
15. Melton AE, **Faske TM**, Parchman TL, Hamilton JA. Genomics-driven monitoring of *Fraxinus latifolia* (Oregon Ash) for genetic conservation and EAB-resistance breeding. *Molecular Ecology*, e17640. [DOI](#)

MANUSCRIPTS IN REVIEW/ADVANCED PREPARATION ([‡]undergraduate/graduate mentee)

-
6. **Faske TM**, Agneray AC, Osuna-Mascaro C, Jahner JP, Richardson BA, Leger EA, Parchman TL (*In Review*) Polyploidy and environmental adaptation structures divergence and limited gene flow among sympatric subspecies of big sagebrush (*Artemisia tridentata*). *Molecular Ecology*
 5. **Faske TM**, Lasché S, Wolf A, Faist AM, Fuentes-Soriano S, Winkler DE, Massatti R (*In review*) The genetic consequences of mixing seed collections and species-specific biology on the development of seed sources for land management. *Ecological Applications*
 4. Gilb S[‡], Haubensak K, Aslan C, Holeski L, **Faske T**, Souther S (*In review*) Population structure and genetic connectivity in the endangered *Pectis imberbis*: addressing conservation and genetic gaps in the Arizona Sky Islands. *Conservation Genetics*

3. Lasché SN, Winkler DE, Schroeder RWR, Wolf AC, Massatti R, Fuentes-Soriano S, **Faske TM**, Faist AM (*In revision*) A Matter of Germination: The Importance of Seed-Sourcing for Seed-based Restoration of Dry Grasslands. *Restoration Ecology*
2. Massatti R, Bainbridge S, Copeland SM, Crouch C, **Faske TM**, Hamerlynck E, Palmer B, Roybal C (*In review*) Introduction using vegetative propagules maintains genetic diversity and increases population redundancy in a critically endangered grass, *Pleuropogon oregonus*. *Conservation Science and Practice*
1. **Faske TM**, LoPiccolo KR[‡], Massatti R(*In preparation*) From theory to practice: uses and misuses of genotype-environment associations to inform restoration and conservation

FUNDING AND AWARDS

Major Grants & Fellowships

- DOI-FWS: SSP Science Support Partnership (PI)** - \$99,820 FY2024-present
Assessing genomic diversity and population connectivity of Bartram's stonecrop across the Madrean Sky Islands
- USDA NIFA - AFRI (PI, took over in FY2024)** - \$789,976 FY2021-present
Testing Native Plant Materials resulting from Emerging Techniques: Functional Suitability, Genetic Diversity, and Performance in the Context of Ecosystem Services in America's Rangelands
- Hitchcock Chemical Ecology Fellowship** - \$13300 + tuition waiver 2020
Hitchcock Center for Chemical Ecology, University of Nevada, Reno
- R.C Lewontin Early Award (Society for the Study of Evolution)** - \$2140 2019
Linking metabolomic and genomic variation to the phytochemical landscape

Smaller Grants & Scholarships

- GSA Outstanding Graduate Student** - \$1000 2022
Graduate Student Association, University of Nevada, Reno
- Graduate Student Access Grant** - \$3000 2022–2023
University of Nevada, Reno
- Ozmen Institute for Global Studies Graduate Student Research Grants** - \$1000 2021
Cause and consequence of polyploidization on the phytochemical landscape
- GSA Fall Research Award** - \$2040 2019
Graduate Student Association, University of Nevada, Reno
- Brussard Scholarship** - \$600, \$800 2019–2020, 2021–2022
University of Nevada, Reno, NV
- Ben & Beatrice Edwards Biology Scholarship** - \$2000, \$1200 2019–2020, 2021–2022
University of Nevada, Reno, NV
- Graduate Research Assistantship** - \$22,900/annual + tuition waiver 2018–Present
University of Nevada, Reno, NV
- Graduate Teaching Assistantship** - \$6,250/semester + tuition waiver 2015–2017
Virginia Commonwealth University, Richmond, VA
- Sigma Xi Grants-in-Aid of Research** - \$350 2014
Spread Rate Dynamics and Responses to Climate in an Invasive Forest Pest

DATA SCIENCE AND TECHNICAL SKILLS

R (*expert*): Generalized linear (*mixed*) modeling, hierarchical Bayesian modeling, machine learning, sparse modeling, structural equation modeling, advanced graphic generation (*ggplot2*), geospatial data handling, mapping, web scrapping, RMarkdown, general data manipulation, package development, population genetic packages

Python (*intermediate*): Co-instructor in graduate level courses, Jupyter notebooks, pandas, scripting/wrappers, machine learning (*proficient*: TensorFlow, keras).

High-performance computing (*expert*): Co-instructor in graduate level courses, Linux/Unix interfaces, job schedulers (slurm/sge), conda environments, bash scripting, source package installation and management

Miscellaneous (*proficient/intermediate*): Markdown, Git (or other version control platforms), LaTeX, Perl, GIS, climate data (WorldClim, ClimateNA, PRISM), metabolomic/phytochemical analyses (GCMS/LCMS/NMR)

Genomic data handling and processing: Library preparation for next-generation Illumina sequencing, reduced-representation sequencing data (GBS, ddRADseq; *expert*), WGS (*intermediate*), transcriptomics (*proficient*), microbiome (*proficient*), genome annotation (*proficient*), *de novo* assembly (*expert*), alignment and variant calling (*bowtie*, *bwa*, *sam/bam/vcftools*, *dDocent*, *Stacks*, *GATK*; *expert*), genotype uncertainty handling (*entropy*, *ANGSD*, *expert*), genomic file format conversions

Population genetic analyses: Ordination (PCA, Procrustes, RDA; *expert*), spatial structuring/clustering (*structure*, *entropy*, *LDA*, *DAPC*, *k-means*; *expert*), landscape genomic analyses (Mantel tests, RDA, variance partitioning, SEM, LFMM, Bayenv, Bedassle, Random/Gradient Forests; *expert*), polyploidy data, hybridization (*Bayesian genomic clines*; *intermediate*), GWAS (*Gemma*; *intermediate*), demographic inference (*fastsimcoal2*, *dadi*, *diyABC*; *proficient*) phylogenetic analyses (*ipgrad*, *RAxML*, *SVDquartets*, *TreeMix*, *ape*, *ggtree*; *intermediate*), genetic diversity estimates/theory (*hierfstat*, *ade-genet*, *ANGSD*, *manually*; *intermediate/expert*), quantitative genetic analyses (took EQGW 2021 Arnold & Felsenstein course; *intermediate*), experience with designing and analyzing common garden/reciprocal transplant data

SERVICE

Outreach: Earthwatch Institute – Caterpillars and climate change

La Selva Biological Station, Costa Rica

2019, 2021–2022

Southwest Research Station, Arizona

2021

Manuscripts Reviewed for:

Ecology and Evolution, Evolutionary Applications, Heredity, Molecular Ecology, Molecular Phylogenetics and Evolution, Scientific Reports, ESA Species Status Assessment

Graduate student committees:

Matthew Weiss, Northern Arizona University, Flagstaff, AZ

present

TEACHING EXPERIENCE

Co-Instructor - University of Nevada, Reno, NV

Data Science for Biology II: Advanced skills (Graduate course, 2 semesters)

2021 – 2022

Data Science for Biology I: Unix and Python (Graduate course, 3 semesters)

2020 – 2022

NSF Gain graduate workshop: Unix and Python

2021 – 2022

Course Guest Lecturer

Population Genetics, Northern Arizona University, Flagstaff, AZ

2026

Conservation Genetics, Penn State University, State College, PA

2023

PRESENTATIONS (21 presented, 4 invited university seminars, 6 invited conference talks, 1 organized symposium, 19 co-authored, 7 mentee presentations) ‡undergraduate mentee

Faske TM (2026) Using genomic and climate data for the restoration and future conservation of native plant communities. *New Mexico Tech*, Socorro, NM. Invited seminar

Faske TM (2025) Genomic perspectives on the restoration and conservation of native plant communities. *University of Arizona*, Tucson, AZ. Invited seminar

Organizers: **Faske TM**, Massatti R, Roybal CM. (2025) Diverse research programs to enhance the future of dryland restoration: Insights from early career researchers. *National Native Seed Conference* Tucson, AZ. Symposium organizer and presenter.

Faske TM, Massatti R (2025) Quantifying the unintended genetic consequences of agricultural seed increase on native plant materials. *National Native Seed Conference*, Tucson, AZ. Invited oral presentation

Faske TM (2024) Variance dissimilarities in mixed-ploidy genomic data cause irregular patterns in PCA and other clustering analyses. *Polyploid Webinar* Invited webinar

Faske TM, Reed S, Faist A, Fuentes-Soriana S, Lache S, Winkler DE, Wolf A, Massatti R (2024) The genetic impacts of polyploidy and self-fertilization on native plant materials. *Society for Ecological Restoration: Southwest chapter*, Tucson, AZ. Oral presentation

Lasche S, Winkler DE, **Faske TM**, Fuentes-Soriana S, Reed S, Wolf A, Massatti R, Faist A (2024) Germination Legacy on Perennial Grass Seed Varieties. *Society for Ecological Restoration: Southwest chapter*, Tucson, AZ. Oral presentation

Massatti R, **Faske TM** (2024) Ignoring evolutionary patterns is likely to hinder climate adaptation management strategies. *Society for Rangeland Management*, Reno, NV. Oral presentation

Faske TM, Massatti R, Barnes IM, Richardson BA, Leger EA, Parchman TL, Knowles LL (2024) Convergent patterns of mosaic hybrid zones in plants across western North America. *Evolution*. Montreal, QC, Canada. Oral presentation

Faske TM (2024) Testing native plant materials resulting from emerging techniques: Functional suitability, genetic diversity, and performance in the context of ecosystem services in America's rangelands. *USDA NIFA AFRI PD Meeting* Honolulu, HI. Invited oral presentation

Faske TM (2023) Evolutionary history, climate adaptation, and polyploidization of shrubs in western North America. *Penn State University*, State College, PA. Invited seminar

Faske TM (2023) Origins of *Artemisia tridentata* subspecies are shaped by ploidal variation and adaptation to environment. *Sagebrush Seed Working Group*, online. Invited oral presentation

Faske TM, Winkler DE, Wolf A, Massatti R (2023) Quantifying the genetic impacts of agricultural seed increase on native plant materials. *Society for Ecological Restoration: Southwest chapter*, Santa Fe, NM. Invited oral presentation

Faske TM (2023) Evolutionary history of shrubs in western North America. *Northern Arizona University*, Flagstaff, AZ. Invited seminar

Faske TM (2023) 2 does not equal 4: Variance dissimilarities in mixed-ploidy genomic data cause irregular patterns in PCA and other clustering analyses. *Botany*, Boise, ID. Oral presentation

Faske TM, Agneray AC, Jahner JP, Richardson BA, Leger EA, Parchman TL (2023) History, ploidy, and environment shape landscape genomic structure of big sagebrush (*Artemisia tridentata*). *National Native Seed Conference*, Washington, D.C. Oral presentation

Garcia Costoya G, **Faske TM**, Moorman J, Logan ML (2022) Damned if you do and damned if you don't: adaptation to warmer environments leads to extinction in variable ones. *Society for Integrative and Comparative Biology*, Pheonix, AZ. Oral presentation

Faske TM, Agneray AC, Jahner JP, Richardson BA, Leger EA, Parchman TL (2021) Range-wide predictors of spatial genetic structure within a foundational plant of the Great Basin, USA. *AGA Symposium: Conservation genomics*, Snowbird, UT. Poster presentation

Faske TM, Agneray AC, Jahner JP, Richardson BA, Leger EA, Parchman TL (2021) Range-wide predictors of landscape genetic structure within a foundational plant of the Great Basin. *Botany*, online. Oral presentation

Faske TM, Agneray AC, Jahner JP, Richardson BA, Leger EA, Parchman TL (2021) Environment predicts the maintenance of reproductive isolation in a rabbitbrush mosaic hybrid zone. *Evolution*, online. Oral presentation

Philbin CS, Dyer LA, **Faske TM**, Jeffrey CS, Richards LA (2021) Heritability and ontogeny of phytochemical traits in *Piper sancti-felicii*. *Ecological Society of America*, online. Oral Presentation

Faske TM, Agneray AC, Jahner JP, Richardson BA, Leger EA, Parchman TL (2021) Landscape genetics of rubber rabbitbrush: Environmental variation is associated with range-wide genetic structure and hybridization among subspecies. *Society for Ecological Restoration: Great Basin chapter*, online. Invited oral presentation

Faske TM, Agneray AC, Leger EA, Parchman TL (2021) Landscape genetics of big sagebrush: *Artemisia tridentata*. *GEM3 sagebrush summit*, online. Invited oral presentation

Jahner JP, Matocq, MD, Cox M, **Faske TM**, Parchman TL (2020) An evaluation of the effectiveness of multi-source translocations for maintaining levels of genetic diversity in reintroduced herds of desert bighorn sheep. *The Wildlife Society (Western Section)*, Redding, CA. Oral presentation

Faske TM, Sheta LM[‡], Agneray AC, Leger EA, Parchman TL (2020) Linking landscape genomic approaches to common gardens: population genetic and phenotypic variation in rubber rabbitbrush (*Ericameria nauseosa*). *Society for Ecological Restoration: Great Basin chapter*, Boise, ID. Oral presentation cancelled due to COVID-19

Sheta LM[‡], **Faske TM**, Agneray AC, Richardson BA, Leger EA, Parchman TL (2020) Environmental variation is associated with rangewide genetic structure of rubber rabbitbrush (*Ericameria nauseosa*) subspecies and predicts reproductive isolation. *Society for Ecological Restoration: Great Basin chapter*, Boise, ID. Poster presentation cancelled due to COVID-19

Faske TM, Sheta LM[‡], Agneray AC, Leger EA, Parchman TL (2019) Geography and environment shape genome and phenotype variation in a foundational plant of the Great Basin. *Evolution*, Providence, RI. Oral presentation

Sheta LM[‡], **Faske TM**, Agneray AC, Richardson BA, Leger EA, Parchman TL (2019) Range-wide genetic structure of rubber rabbitbrush (*Ericameria nauseosa*) and the potential for reproductively isolated lineages. *Evolution*, Providence, RI. Poster presentation

Bolte CE, **Faske TM**, Eckert AJ (2019) Putative hybridization among ecologically similar pine species distributed across the Appalachian Mountains. *Evolution*, Providence, RI. Oral presentation

Faske TM, Thompson LM, Parry D, Eckert AJ, Grayson KL (2018) Using genomic approaches to understand local adaptation and range dynamics in the North American Gypsy Moth. *Entomological Society of America*, Vancouver, BC, Canada. Invited Symposium Presentation

Banahene N[‡], Salem SK[‡], Byrne HM[‡], Glackin M[‡], Thompson LM, **Faske TM**, Agosta SJ, Eckert AJ, Grayson KL (2018) Stage-specific responses to heat stress in an invasive forest pest. *Society for Integrative and Comparative Biology*, San Francisco, CA. Poster Presentation

May C[‡], Hillerbrand N[‡], Thompson LM, **Faske TM**, Parry D, Martinez E, Agosta SJ, Grayson KL (2018) Metabolic acclimation to temperature in invasive populations of gypsy moth (*Lymantria dispar*) from latitudinal extremes. *Society for Integrative and Comparative Biology*, San Francisco, CA. Poster presentation

Faske TM, Thompson LM, Friedline CJ, Parry D, Agosta SJ, Johnson DM, Eckert AJ, Grayson KL (2017) Latitudinal genetic structure and adaptive evolution at the southern invasion front. *The Annual Review of the National Gypsy Moth Management Board*, Savannah, GA. Invited oral presentation

Faske TM, Thompson LM, Friedline CJ, Agosta SJ, Johnson DM, Grayson KL, Eckert AJ (2017) Effect of temperature and genetic structure on gypsy moth invasiveness at a range margin. *Evolution*, Portland, OR. Oral presentation

Glackin M[‡], Byrne HM[‡], Banahene N[‡], Salem SK[‡], **Faske TM**, Thompson LM, Eckert AJ, Agosta SJ, Grayson KL (2017) It's hot as moth balls in here! Stage-specific responses to heat stress in the invasive gypsy moth (*Lymantria dispar* L.). *VCU Undergraduate Research Symposium*, Richmond, VA. Poster presentation

Byrne HM[‡], Glackin M[‡], Banahene N[‡], Salem SK[‡], **Faske TM**, Thompson LM, Eckert AJ, Agosta SJ, Grayson KL (2017) Can't stand the heat? Stage-specific responses to heat stress in the invasive gypsy moth (*Lymantria dispar* L.). *Ecological Society of America Conference*, Portland, OR. Poster presentation

Banahene N[‡], Salem SK[‡], Byrne HM[‡], Glackin M[‡], Thompson LM, **Faske TM**, Agosta SJ, Eckert AJ, Grayson KL (2017) Stage-specific thermal limits for growth and survival in an invasive forest pest. *Virginia Academy of Science*, Richmond, VA. Poster presentation

Grayson KL, Thompson LM, **Faske TM** (2017) Thermal Performance and the Southern Invasion of the Gypsy Moth. *Virginia Association of Forest Health Professionals*. Glen Allen, VA.

Faske TM, Thompson LM, Friedline CJ, Agosta SJ, Johnson DM, Grayson KL, Eckert AJ (2016) The genetic architecture of invasion at the range margin. *Evolution*. Austin, TX. Poster presentation

Friedline CJ, Eckert AJ, **Faske TM**, Grayson KL, Johnson DM, Parry D (2016) The ecological genomics of gypsy moth invasion along a latitudinal gradient. *Evolution*. Austin, TX. Poster presentation

Grayson KL, Thompson LM, **Faske TM**, Tobin PC, Friedline CJ, Eckert AJ, Parry D, Johnson DM (2016) The opening and closing of climatic envelopes in the gypsy moth invasion of North America. *International Congress of Entomology*, Orlando, FL. Invited symposium presentation

Grayson KL, Thompson LM, **Faske TM**, Parry D, Johnson DM, Tobin PC (2016) Can Gypsy Moth Stand the Heat?: Performance at the Southern Invasion Front. *North American Forest Insect Work Conference*. Washington, D.C. Invited symposium presentation

Thompson LM, **Faske TM**, Agosta SJ, Parry D, Tobin PC, Johnson DM, Grayson KL (2016) Population variation in gypsy moth growth and development at supraoptimal temperatures across the North American invasion. *The Annual Review of the National Gypsy Moth Management Board*. Columbus, OH. Invited oral presentation

Grayson KL, Thompson LM, **Faske TM**, Banahene N[‡], Levorse A[‡], Quiroga-Herrera M[‡], Yang B[‡], Parry D, Tobin PC, Gray DR, Johnson DM (2015) Performance of gypsy moth at supraoptimal temperatures at the southern invasion front. *Ecological Society of America*, Baltimore, MD. Poster presentation

Grayson KL, Thompson LM, **Faske TM** (2015) Performance of gypsy moth under historic, current, and future temperatures at the southern invasion front. *The Annual Review of the National Gypsy*
